project that has become one of the nation's most relied upon sources of information on emerging trends in illicit drug, alcohol, and tobacco use among American adolescents, college students, and young and middle-aged adults One of Professor Bachman's significant contributions within the

**History of the Annville Lime Company**

Bachman's Mill was the third of three mills built by the Raiguels from 1797 to 1831 Only one of these mills is still standing That mill, built in 1797 and located on South White Oak Street on the South side of the Quittie, was later sold by the Raiguels to David Kreider

**Additional Notes on Bachman's Warbler - Carolina Bird Club**

6 Additional Notes on Bachman's Warbler was both heavily wooded and endowed with a thick understory (Wayne 1905, 1910) This has caused confusion when coupled with Wayne's admission that the area had originally been a rice field The historical accuracy of this statement has been borne out however, and a better picture
