The Linear Algebra Chapter in Goodfellow et al is a nice and concise introduction, but it may require some previous exposure to linear algebra concepts. Deisenroth et all book is probably the best and most comprehensive source for linear algebra for machine learning I've found, although it assumes that you are good at reading math (and at math more generally). Savov's book it's also ...

Solving linear inequalities is almost exactly like solving linear equations. Solve  $x + 3 < 0$ .; If they'd given me " $x + 3 = 0$ ", I'd have known how to solve: I would have subtracted 3 from both sides.I can do the same thing here: Then the solution is:
